

Where Someone Cares

Where Someone Cares Annual Report 2016

Our New Home for Healing

The Maliheh Free Clinic is working to raise funds necessary to renovate our new facility giving us the ability to enhance client services and volunteer experiences. A generous gift from the Semnani Family Foundation allowed purchase of the building for the clinic. The new building, located at 941 East 3300 South, previously served as the offices of the American Cancer Society. We anticipate moving to this facility in Summer, 2018.

The Maliheh Free Clinic was started in 2005. Our sole focus is to provide free health care for the working poor and uninsured individuals and families in our community. All of our patients are families living below 150% of the federal poverty guidelines. The clients we serve report a total income for a family of 4 of less than \$35,325 a year. Imagine the financial decisions these families make when it comes to healthcare. They have no health insurance, nor are they eligible for Medicare, Medicaid, CHIP, homeless services, or other government programs. Without the Maliheh Free Clinic, these individuals and families have limited or no access to health care services, eventually ending up as charity care patients in our community's emergency rooms. In the end, it becomes more expensive for the entire community. The Clinic helps address this challenge for families by offering a wide range of medical services with our primary focus being on providing routine maintenance and preventive care.

Our present facility is simply inadequate to serve our growing base of clients, volunteers and services. We hope you will take the time to learn more about this campaign and our pressing need and we hope you will consider your own generous support of this important project.

Mission

The Maliheh Free Clinic seeks to improve the quality of life in the Greater Salt Lake City Area by providing free medical services for uninsured and low-income individuals and families to help reverse the cycle of poverty and suffering created by poor health.

The Maliheh Free Clinic offers a range of medical services, however, our primary focus is on health maintenance, patient education, and preventative care. We are the primary care providers for over 5,000 individuals in our community, providing regular visits, labs, screenings, childhood immunizations, and patient education.

- Adult and family medical visits
- Pediatric Care
- Assistance with Medications through Patient Assistance Programs
- Childhood Immunizations
- Specialist Services including: Counseling, Dermatology, Gastroenterology, Gynecology, Minor Surgery, Nephrology, Oncology, Ophthalmology, Orthopedics, Podiatry.
- On-site laboratory providing a full range of lab tests
- X-ray and Ultra Sound
- Healthy Living Classes, Weight Loss Classes and Diabetes Education.
- Expanded hours including evening and Saturday appointments

The Maliheh Free Clinic is run by a core team of full-time and part-time professional staff, and many volunteer doctors, nurses, pharmacists, administrators, interpreters and other members of the community. We also draw on the medical expertise and resources of long time partners, including Intermountain Healthcare, the University of Utah, and major pharmaceutical corporations.

The Maliheh Free Clinic was named in honor of Maliheh Abdollahi "Modar joon", grandmother of Mr. Khosrow B. Semnani, the benefactor of the Maliheh Free Clinic. Maliheh selflessly gave of herself to others so that their burdens might be lighter, their visions longer, and their dreams could be fulfilled. The Maliheh Free Clinic stands as a tribute to her. Through its service to the community, the memory of her kind and charitable spirit lives on.
